

# PROUDLY BUILT IN ROME, GEORGIA

**THE SUZUKI KINGQUAD ATV. AMERICAN STRONG.  
JUST LIKE THE PEOPLE WHO BUILD IT.**

American work is at the heart of what makes the KingQuad trusted, rugged, and reliable. That's why we've been assembling KingQuad ATVs in Rome, Georgia for 16 years. Raw, high-tensile steel from local suppliers is cut, bent, and welded into frames, and our engines are built using precision tools and techniques that continue Suzuki's legacy of performance and reliability. The in-house plastic molding of fenders and application of the elements-resistant powder coating are fitting testaments to Nothing's Built Like a KingQuad®. The end result is an ATV that's more than strong – it's KingQuad strong.
