

GSX-S750 :60 RADIO SCRIPT

It's time to rev to the next level.

Hurry to [dealer name] in [city name] to experience the all-new 2018 Suzuki GSX-S750 street bike.

In a class of its own and tapping in with 750cc of raw performance, there's nothing like the muscular torque and broad power output of its aggressive, inline four cylinder.

Expect a compact, fuel-injected engine derived from GSX-R technology...

...Four-mode Suzuki Advanced Traction Control, lets the rider match sensitivity to road conditions...

...new four-piston, radial-mounted brake calipers, for strong and consistent stopping performance...

...and Low RPM Assist that smooths the power delivery for effortless launches while reducing the chance of the rider stalling the bike.

All wrapped up in ripped, cutting edge styling and a street fighter stance.

See the next-generation Suzuki GSX-S750 at [dealer name] in [city name] or visit [URL] today. Because when it comes to street bikes, it absolutely punches above its weight.
